Kiss Tomorrow Goodbye

Luke Bryan

```
C          Em             D
All we do right is make love
C            Em           D
We both know now it ain't enough
C                       G
Ain’t gonna beg you to stay
                            D
Ain't gotta ask you what's wrong
                                                    C
Ain’t no reason running after something already gone
                        G
Take off your leavin' dress
                      D
Let’s do what we do best
                                              C
I guess everybody’s got their way of moving on
C                     Em
Girl rest your head one more time in my bed
D
Love me like you loved me when you loved me
                        C
And you didn’t have to try
Em              D
Let’s lay down tonight
                        C  Em D
And kiss tomorrow goodbye

Baby who we are just didn’t work
But maybe we can leave with something out of all this hurt
Ain’t gonna beg you to stay
Ain’t gotta ask you what’s wrong
Ain’t no reason running after something already gone
Take off your leavin' dress
Let’s do what we do best
I guess everybody’s got their way of moving on
Girl rest your head one more time in my bed
Love me like you loved me when you loved me
And you didn’t have to try
Let’s lay down tonight
And kiss tomorrow goodbye

Ain’t gonna beg you to stay
Ain’t gotta ask you what’s wrong
Ain’t no reason running after something already gone
Take off your leavin' dress
Let’s do what we do best
I guess everybody’s got their way of moving on
Girl rest your head one more time in my bed
Love me like you loved me when you loved me
And you didn’t have to try
Let’s lay down tonight
And kiss tomorrow goodbye
Let’s kiss tomorrow goodbye.
```
