

11:11, that's the time now  
I was supposed to kill myself like right now  
I just had a feeling, something new, huh  
Couldn't pull the trigger, got the goosebumps  
Sitting in my lab, I feel like Einstein (Uh, oh)  
Looking at the future in my mind's eye (Uh, oh)  
I got 20/20 in my hindsight (Uh, oh)  
Life is a bitch, need to wake up (Uh, oh)

Never did I want to be a superstar  
Honestly, I felt like I was sent to Earth from super far  
Niggas always followed what I did like my kids  
Guess I gotta tuck 'em niggas in with a kiss  
All I do is air out all my laundry while I work, uh  
So wavy but I go against the surf, uh  
Introvert, it's a gift and a curse, watch it work  
I got scores I got to settle  
By the time this shit is over, there won't be nobody better

What's the time now?  
It's a miracle I didn't blow my mind out (Yeah)  
I just got a feeling, something true, huh  
Never pulled the trigger, got the goosebumps  
Sitting in my lab, I feel like Einstein (Uh, oh)  
Looking at the future in my mind's eye (Uh, oh)  
I got 20/20 in my hindsight (Uh, oh)  
Life is a bitch, need to wake up (Uh, oh)

Goin' off the feelin' now, true shit  
They sink a million ships with their loose lips  
And still, never tell you anything you needed  
I don't want their fake advice, I told 'em, "Keep it"  
I ain't one to follow orders, I'm no sheep, shit  
I don't need to co-sign on the treaty  
I got something much better, got the secret  
My vibes in line with the season  
And this life is twice as appealing  
Young boy getting as high as the ceiling  
And my hand touch the sky as I'm reaching  
Short air supply, I might regress
