

# AGAINST ME

Luke Christopher

Even with all odds against me, I  
Seem to find my way  
Even with the whole world against me, I  
I seem to find my way  
Oh my God

Is it me, am I static, stuck on a chapter?  
Overdramatic, can't let it happen  
All the shootings that don't matter  
Gotta let 'em pass for the good  
And even when the demons come, I won't let 'em get me  
Treat me wrong, tell you, "Please don't hit me"  
All along, knew I had it in me, babe

But you like, "What if, in the end, this is the only life we get?"  
I'm only invested 'cause I want a little bit  
If I would've known I would've been a better kid  
I swear to God

Even with all odds against me, I  
Seem to find my way  
Even with the whole world against me, I  
I seem to find my way  
Oh my God

And I hope that you know that I'm there when you need me  
Especially when the whole world is against me, yeah  
And I want you to know that they'll never get me  
Especially when the whole world is against me

And I've yet to see you like this  
I want to see through more than give up  
It's a natural kind of high  
Don't you let the time fly by

She like, "What if, in the end, this is the only life we get?"  
I'm only invested 'cause I want a little bit  
If I would've known I would've been a better kid  
I swear to God

Even with all odds against me, I  
Seem to find my way  
Even with the whole world against me, I  
I seem to find my way  
Swear to God (Yeah), oh
