

# AMERICAN LOVE

Luke Christopher

Uh, what up, sister girl  
Tell me you ain't really got a mista, girl  
You ain't even really gotta kiss me, girl, but this the man, though  
And I can fit you in the picture, van Gogh  
The band's slow, I'll play my own tune  
What's hot, dark, and sweaty? That's you in Cancun  
You without jewels, a city with no lights  
A song with no hook, a day with no, no

So baby (Ooh, ay)  
You're prettier than Marilyn (Ay, ooh)  
Misses Methampheta-Marijuana-Cocaine  
Can't you see you're like a drug to me? (Ay)  
Can't you see you're like a drug to me?

Your body's like a trophy  
Your baseline's like the moon  
Your voice deserves a Grammy  
And by then I'll have one too  
Girl, I'll go meet your daddy  
And you can meet my mama  
Oh, babe  
It'll all be a part of our American love

Precious, precious, let me in  
You'll be my American (American love)  
Precious, precious, let me in  
Whether you're black, white, Asian, or Mexican (Our American love)  
Precious, precious, let me in (American love)  
You'll be my American (American love)  
Precious, precious, let me in  
Whether you're black, white, Asian, or Mexican (Uh)

Yes, Mr. Jeffers, my suit is on  
Your daughter lookin' bomb in that Louis Vuitton  
I opened up the door to the [?]  
Who we on? Whips like [?]  
But when I do be on  
We gon' have a house in the hills, six-figure bills  
I'll pay the taxes and get the figure back with a 12-figure check  
That's seven figures left, but  
I don't wanna be aristocrats  
White girl who got the black magic  
My girl who got the right fashion  
And it's my job to give her the right action  
If this is peace and this is love  
Then she's in the middle and her tits above, I swear it  
'Til a nigga rich enough to fall in love in Paris  
It's my American love

Your body's like a trophy  
Your baseline's like the moon  
Your voice deserves a Grammy  
And by then I'll have one too  
Girl, I'll go meet your daddy  
And you can meet my mama  
Oh, babe

It'll all be a part of our American love

Precious, precious, let me in  
You'll be my American (American love)  
Precious, precious, let me in  
Whether you're black, white, Asian, or Mexican (Our American love)  
Precious, precious, let me in (American love)  
You'll be my American (American love)  
Precious, precious, let me in  
Whether you're black, white, Asian, or Mexican (Uh)

My señorita's a 10  
But if it don't work, then we can't be friends  
And if it don't work, then I have to sin  
I have to sin, I'll say it was an accident  
But your ass is flame  
You keep saying I have to change  
I keep saying you're free to make  
The most of the whole thing  
Stick around, mamacita, get a ring

Your body's like a trophy  
Your baseline's like the moon  
Your voice deserves a Grammy  
And by then I'll have one too  
Girl, I'll go meet your daddy  
And you can meet my mama  
Oh, babe  
It'll all be a part of our American love

Precious, precious, let me in  
You'll be my American (American love)  
Precious, precious, let me in  
Whether you're black, white, Asian, or Mexican (Our American love)  
Precious, precious, let me in (American love)  
You'll be my American (American love)  
Precious, precious, let me in  
Whether you're black, white, Asian, or Mexican (Uh)
