

Back To Me

Luke Christopher

I know times been tough, I know you've been lonely
I know things get hard for you sometimes
When I'm on the road, and you're home alone
I wish I could make the stars align

And bring you back to me, back to me
And bring you back to me, back to me, back to me

I see your picture on the 'fridgerator
Set a reminder to remind me not to hit you later
New crib, I just got situated
And all the furniture is new, except the shit you hated
I did too, but it's you and I can't toss it yet
I still get whiffs of your perfume, I haven't lost it yet
I got a show in 14 hours, I ain't booked the jet
'Cause I'm still waiting for your call, I pick up, you say "wait a sec"
But it never comes, and the flight is long
And the sleeping pills hit me like an atom bomb
And my heart explodes, but that's life, you know
So I pick up all the pieces and I kill the show
I should have never left you all alone for all those hours
Should have never said something 'bout it
Used to love, I should've shown love for you
I should have gave everything, baby

I know times been tough, I know you've been lonely
I know things get hard for you sometimes
When I'm on the road, and you're home alone
I wish I could make the stars align

And bring you back to me, back to me
And bring you back to me, back to me, back to me
Back to me, I wish I could bring you right back to me
Bring you back to me

Huh, yeah, I'm a fucking fraud
Play Mr. Perfect when I'm home, but then I don't abroad
Then I play stupid when you mad, like I don't know the cause
Silence is a bitch, when you addicted to the applause
That ain't no excuse, I'm asking for a truce
I've done some things that I ain't even know that I could do
I want the pain you gave me again, 'least it was true
Nothing to lose, ain't shit to prove, just me and you
Listen, baby

I know times been tough, I know you've been lonely
I know things get hard for you sometimes
When I'm on the road, and you're home alone
I wish I could make the stars align

And bring you back to me, back to me
And bring you back to me, back to me, back to me
Back to me, I wish I could bring you right back to me
Bring you back to me
