

# Best Day Ever

Luke Christopher

:

Sitting in my old car, old car  
You know the one we used to ride in, ride in  
Where were we going baby?  
Nowhere, nowhere, like you said

Could have been the best day ever I swear  
Could have been the best day ever I swear  
You had anything that you wanted  
Anything that you need  
Could have been the best day ever  
Ever

I can't believe you really asking for some space  
And I ain't seen nobody happier when I engaged  
Baby we were supposed to get married  
How you gonna leave me like this?  
If a crib and a car ain't enough  
What about the love that I can give?  
But you never thought like that  
You don't think like that  
You just walked up out the door  
And you never coming back  
I be laying in the bed  
I be looking at your pictures  
I remember what you said, what you said, what you said

Could have been the best day ever I swear  
Could have been the best day ever I swear  
You had anything that you wanted  
Anything that you need  
Could have been the best day ever  
Ever

Ever had a moment when you staring  
At the pictures on your dresser  
And then you start to remember  
Certain times that were better  
You don't wanna forget her  
You don't wanna regret her  
Couldn't ever imagine a day  
When you'd be forced to let her  
Survive without you and  
Live a life without you and  
Find a guy that's like you  
But never lies like you do and  
Since you left I haven't been able to sing loud  
Gotta find another finger for this ring now
