

Can't Sleep

Luke Christopher

Yeah, I know it's four o'clock in the morning

I can't sleep

There's just too much in my head and I'm lonely in this bed

Won't you comfort me?

'Cause I just need a body here right now

I can't sleep 'less you're laying next to me (I can't sleep)

I can't sleep 'less you're laying next to me

Yeah

All this pain and pleasure

Can't tell which is better

I take drastic measures

Just so I don't feel shit

Hoping you can heal it

I can't sleep

There's just too much in my head and I'm lonely in this bed

Won't you comfort me?

'Cause I just need a body here right now

I can't sleep 'less you're laying next to me (I can't sleep)

I can't sleep 'less you're laying next to me

I can't sleep

There's just too much in my head and I'm lonely in this bed

Won't you comfort me?

'Cause I just need a body here right now

I can't sleep 'less you're laying next to me (I can't sleep)

I can't sleep 'less you're laying next to me
