Complicated

Luke Christopher

Real quick, who you with?
No games, I'm bein' true as shit
I saw your face, I'm like, "Ooh, it's lit"
I was feeling you and you were feelin' it and then you
Get to switching up like a Mike song in the 80's
All nights you're driving me crazy
If you wanted attention
All you had to do is mention
Now you got me second guessing
Got me asking

If it's too complicated
Is this too frustrating?
Fuck all that playing
If you want it you should say it
I'ma give you attention
If you want love you would take it
You would take it

You trynna make me feel jealous
Hate to say I don't mind
Lit as hell with my fellas
You just wasting your time
It's a lot on your mind and I get it
Girl, I ain't trippin'
Take a minute and get over
When you got it let me know, girl
This ain't elementary
You might let your friends see me
If you wanted attention
All you had to do is mention
Now you got me second guessing, woah

'Cause right now it's too complicated
Is this too frustrating?
Fuck all that playing
If you want it you should say it
I'ma give you attention
If you want love you would take it
(Would you take it?)

The way that you're talking is shady
Don't know what's real and what's not
And reading your mind's overrated
You love me and then you walk off
The way that you're talking is shady
Don't know what's real and was not
But reading your mind's overrated
You love me and then you walk off

It's too (complicating)
It's too (frustrating)
Fuck all that playing
If you want it you should say it
I'ma give you attention
If you want love you would take it
Right now it's too complicated

```
If it's too frustrating
Fuck all that playing
If you want it you should say it
I'ma give you attention
If you want love you would take it
You would take it
```

```
If it's too frustrating
Fuck all that playing
If you want it you should say it
I'ma give you attention
If you want love you would take it
You would take it
```
