

Day Dreams

Luke Christopher

Day dreaming got my head in the sky
Busy, passing the time away
Don't bother me, I'll be just fine
Rather stay in my mind today
I swear

Yeah, tuned in, I am in the matrix
Looking for some numbers I can play with
A shawty I could stay with, nobody got a playlist
Whenever I miss her, I just call her up and play it
She know when I'm faded, but I still try and fake it though
On the other line, "Sorry you have to be patient, hold"
There's money calling and only I shall know when I'm withdrawing
Feeling like an all-star, I just started balling
They say they hit freedom [?] like it's just started calling
These niggas say they clutched and they start stalling
The flow could be from Yeezy
Killed the track too, it's all too easy
I swear one day you just might see me
Like, "Keep it blessed up, bruh, keep it breezy"
Keep your chest up, bruh, I know shit can be a little bit deceiving
The life steady gleaming and I'm [?]

Day dreaming got my head in the sky
Busy, passing the time away
Don't bother me, I'll be just fine
Rather stay in my mind today

Pardon my silence and pardon my distance
They can keep talking and I just keep listening
The problems we're fixing, the shit that I'm wishing
This life is a movie, I feel like it's fiction
And one day I'll get there, it's not a prediction, it's the facts, fam
They ain't grown with you, get they ass to ask, fam
These niggas act like pussy as they pass me
Running into walls like the Pac-Man
Careful for what you ask for
You living? Tell me why the hell you mad for?
A glass of champagne, you should have more
And really I've been learning to relax more
Hit you on the snap more, I come in the back door chilling
Eyes low, feeling ourselves, blunt smoke killing our health
Won't stop though, I'm living on top
Daydreaming let me tell you how I feel
I'll tell you how I feel

Day dreaming got my head in the sky
Busy, passing the time away
Don't bother me, I'll be just fine
Rather stay in my mind today
I swear
