HAPPY

Luke Christopher

I need to go
Somewhere I know ain't nobody could find me
Out on my own
Into the Matrix, no walls to confine me
It's like I exist
Just to make you happy
It's like I exist
Just to make you happy
I gotta boast
200 miles an hour on the highway
You calling me out
I said from now on I'm doing it my way
Like I exist
Just to make you happy
Like I exist
Just to make you happy

Tell me who's pulling the strings now
It's like I'm starting to sing now
Part of the problem I think was
Feelings were too hard to keep out
Getting high like an astronaut
Do she love me? Do she love me not?
Peter Piper can go fuck himself
She got the pickle from somebody else
I made you happy like it's for my health
Only God knows that I need help
I was sad when I fell in love
Now I'm better and we breaking up
I would rather be alone than
Trapped deep in a corner with you

I need to go
Somewhere I know ain't nobody could find me
Out on my own
Into the Matrix, no walls to confine me
It's like I exist
Just to make you happy
It's like I exist
Just to make you happy
I gotta boast
200 miles an hour on the highway
You calling me out
I said from now on I'm doing it my way
Like I exist
Just to make you happy
Like I exist
Just to make you happy

I can't fight it
The truth don't lie
I've been living this lie for you
Just to make you happy
I can't fight it
The truth don't lie
I've been living this lie for you
(Just to make you happy)

(Just to make you happy)
(Just to make you happy)
(Just to make you happy)
(Just to make you happy)
