

Turn my headphones up, please  
Wonderful

Life is lovin', life is patience  
Life is people causing pavements  
And if you forget it, she'll make you hate her  
I promise you if you love her, she'll return the favor on the low  
Can't pay rent - the paper's on the door  
Either walking on the clouds, there's staples on the floor  
Waiting for somebody to wake you in the morning  
Looking for somebody to make you important  
Ten bad thoughts behind the nice faces  
Bad people in the nice places  
You mean it but you don't say it  
I say it but I don't mean it  
They're saying, "Don't you believe it"  
I say, "Be happy you're breathing"  
Sometimes it's hard to get through so  
'Cuse me if I do when I feel it

You can find me getting faded on the dance floor  
'Cause I know life is not just something that you plan for  
Leave your problems at the door  
Take a shot and let go  
I'm like "Scoot to the side, let me slide"

I'm just gonna dance  
With anyone that I want to  
I'm just gonna dance  
With anyone that I want to, ey-yeah

Yeah, Moscato, Moscato  
Tell the driver not to hit the pothole  
These asses clapping like bravo  
Make it feel like a tough act to follow  
Two Spanish girls with heels up to top floor  
And I'm standing, we got to, we got to  
I'm tryna hit it, shake like vibrato  
You tryna get me to stay, I'm like "no hablo"  
A vision board, a [?]  
I got ways, I'm [?]  
And there was days they was hating hard though  
I had to forgive 'em and let 'em follow  
I was swimming in women but it was shallow  
When I'm better now, I gots to go  
Can't let you down, I'll let you know  
When I'm around, when I'm around

You can find me getting faded on the dance floor  
'Cause I know life is not just something that you plan for  
Leave your problems at the door  
Take a shot and let go  
I'm like "Scoot to the side, let me slide"

I'm just gonna dance  
With anyone that I want to  
I'm just gonna dance

With anyone that I want to, ey-yeah

You can find me getting faded on the dance floor  
'Cause I know life is not just something that you plan for  
Leave your problems at the door  
Take a shot and let go  
I'm like "Scoot to the side, let me slide"

I'm just gonna dance
