

Just Friends

Luke Christopher

"Hello?"

Look I know I'm wasted
Hope you got some patience
Don't mean to be messy
I just had to say this
I think about you often
Hope that's not a problem
Tell me what you're thinking
Hoping that you're feeling the same
Oh you said we should just be friends
Hit me like a ton of bricks
I feel like an idiot
When you said we should just be friends

That's all we should be
Them words came out your mouth
Came crashing into me
Think they took off a piece
I thought I had a chance
Am I delusional?
Yet see you kicking with these stupidos
Came off like a rebound
I went up up
Now you asking if he's down
Shut the fuck up
Tell me what I look like
Do I look like the friendzone
You just nod your head fuck
I lobbed that shit and
You caught it in the endzone

Look I know I'm wasted
Hope you got some patience
Don't mean to be messy
I just had to say this
I think about you often
Hope that's not a problem
Tell me what you're thinking
Hoping that you're feeling the same
Oh you said we should just be friends
Hit me like a ton of bricks
I feel like an idiot
When you said we should just be friends

I wish you told me long ago
Your friends they say "I should've known"
But you too scared to be alone
You need me and I still come
Cause I'm too deep to let you go
Damn baby
Came off like a rebound
I went up up up up
Now you asking if he's down
Shut the fuck up
Tell me what I look like
Do I look like the friendzone

You just nod your head fuck
I lobbed that shit and
You caught it in the endzone

Look I know I'm wasted
Hope you got some patience
Don't mean to be messy
I just had to say this
I think about you often
Hope that's not a problem
Tell me what you're thinking
Hoping that you're feeling the same
Oh you said we should just be friends
Hit me like a ton of bricks
I feel like an idiot
When you said we should just be friends

You said we should just be friends
Hit me like a ton of bricks
I feel like an idiot
When you said we should just be friends
