

KEEP THE LIGHTS ON

Luke Christopher

The troubles deep inside
I keep trying to fight 'em
There's too much on my mind
No one to confide in
The darkness creeps inside
Angel on my shoulder
Devil on my shoulder
Someone keep the lights on for me

God say the word, that's where I'm gonna be
Wouldn't wish the pain on anyone but me
When the good is bad but the bad is badder
It's way too dark, too dark

All this evil got me fighting demons like I'm Kurt Cobain or something
Do I amuse you cause if I do too much you don't pay me nothing, shit
I'm losing my marbles, send me my car, I'm speeding up
In my lucky stars, I know of a bar where we could go
Keep her cool and around me she let me know
When I'm right at the edge and I'm peaking up
In a month, or like two, she gon' have enough
I'll replace her with someone who doesn't know

Right at the edge
Trip through the door
Slip on the rug
Right into bed

The troubles deep inside
I keep trying to fight 'em
There's too much on my mind
No one to confide in
The darkness creeps inside
Angel on my shoulder
Devil on my shoulder
Someone keep the lights on for me

I'm on the coaster, I been on the [?]
This more like surfing a volcano
She smile at me but it's silicone
Faker than breaking your funny bone
Money do nothing for happiness
Just ups the attention and brattiness
Turn my cap to the back like I'm battin' it
Fall to my knees and I pray like I'm Kaepernick
I was like (right at the edge)

Right at the edge
Trip through the door
Slip on the rug
Right into bed

The troubles deep inside
I keep trying to fight 'em
There's too much on my mind
No one to confide in
The darkness creeps inside

Angel on my shoulder
Devil on my shoulder
Someone keep the lights on for me
