

# Million More

Luke Christopher

Finally made a million now I need a million more  
Finally made a million now I need a million more  
Used to catch me in the city now you catch me at the store, boy  
Finally made a million now I need a million more

If niggas had a problem with my old shit  
Shoulda told a nigga now im feeling like I'm Hov bitch  
She said she don't even like me  
Said she fuck me just to spite me  
Had a problem with my old chick  
Little groupie you be on a whole beg fad  
Just tryna screw her way into her own damn madness  
Hold your hoes to your own damn standards  
No damn questions and no damn answers  
Finally got a deal no lie  
5 minutes in the room and they all want to sign  
I told them if they want the name on the line  
Better send the chu-ching to the bank on time

Finally made a million now I need a million more  
Finally made a million now I need a million more  
Used to catch me in the city now you catch me at the store, boy  
Finally made a million now I need a million more

Yeah, bad bitches always putting on shows for a nigga  
Pull the curtains back, let me see the real shit  
When y'all busy poppin' molllys  
I just took my model Molly to Tahiti that's a real trip  
Just a couple real niggas living life in here  
Can a young nigga look fly in here  
A couple bad women playin' wife in here  
We gonn' have them asses clappin' like some lightning hit  
We ain't looking for no real life barbies  
All on the rocks nigga she got the car keys  
And parked the new whip in the VI parking  
Barely tinted just so y'all can see me partially

Finally made a million now I need a million more  
Finally made a million now I need a million more  
Used to catch me in the city now you catch me at the store, boy  
Finally made a million now I need a million more
