

Need That Love

Luke Christopher

Yeah

When niggas start talkin' like they rule the world I just laugh and sip my drink

Cause when I drop that ATAT I raise hell for them niggas can blink

I killed the beat

In the streets wearing all of my peoples

Black hoodie in the white house I'm so emo

Try to look poor when I'm with rich people

So I can stunt on 'em on they new tuxedos

Who the fuck is you? I'm the new boy premo

Killed the track the beat that's murder me though

Copped the kilo for my negro

Feelin' like a light-skin super hero

Thinkin' ain't gon' cut it for us Dr. Evil

Got niggas in Ingo mighty lethal

Shit that we do is like illegal

But what the fuck do I know? Ask my people

Look at your body (yeah)

Baby I don't even know what you are

And ain't this a party (a party)

Tell me why you're out here staring at the stars

I know you're different, know you're different, know you're different, know you're different

But this ain't got to do with our hearts

It's strictly physical

Baby your rock and roll

But I just wanna play your guitar

I need that love I need it now

I got no time to wait around

I need your ups I need your downs

I need your body all around

I need you here I need you there

I need you everywhere I go

I need your love I need it now

I need your love I need it now

I need that love I need it now

I got no time to wait around

I need your ups I need your downs

I need your body all around

I need you here I need you there

I need you everywhere I go

I need your love I need it now

I need your love I need it now

Look at your body (yeah)

Baby I'm not going to stay if you roll

You need a friend baby

Lets not pretend baby

Cause I won't watch you leave here alone

With yours aside I'd make you famous

Favorite restaurant fuck a wait-list

On to Europe been complainin'

Body like damn I need ya bad

Got me zonin' got ya moanin'

Neighbors callin' three in the mornin'
Ain't no yawnin' we be on it
Body like damn I need ya (uh) well I need that

I need that love I need it now
I got no time to wait around
I need your ups I need your downs
I need your body all around
I need you here I need you there
I need you everywhere I go
I need your love I need it now
I need your love I need it now

I need that love I need it now
I got no time to wait around
I need your ups I need your downs
I need your body all around
I need you here I need you there
I need you everywhere I go
I need your love I need it now
I need your love I need it now
I need that

Yeah, lovin' that you showing at the gate girl, gate girl
Baby but honestly we never hadn't dance at the race girl, race girl
Baby just watch and see all the problems that you think I'm finna make girl,
make girl
You can times that by three
I don't want to be another mistake girl, mistake girl
And I think it's my body, don't work like my hands
One minute it's perfect, next minute it's dead
We're going in circles
We're going, we're going in circles
We're going, we're going in circles
We're going, we're going in circles
