

# NEVER TOO SCARED

Luke Christopher

(Uh) To the left, uh  
Slide to the left  
To the left, uh

I'm feeling nauseous, it's just my anxiety  
So used to being cautious when I feel this inside of me  
But I'm never too scared to love you, baby, ooh yeah  
I'm never too scared to love you, baby, ooh yeah

Yeah, put my chest out, put my jeans up  
I'm a mud rat, never ever clean cut  
Way you talking to me, you know how to be a fuck with a nigga  
Never stunt on a nigga, pop a trunk for a nigga  
Let me pop these Gucci bags in  
You my Jasmin, I'll be your Aladdin  
A whole new world, either [?] in the cabins  
The snow or the sun, either way, it gon' be lavish  
But I'm like usually this anxious  
Make me wanna drive you down to where my bank is  
Take out everything inside and get a plane ticket  
Buy her [?] vacation  
I never gave shit 'bout this lil' L.A. world  
Funny South-shawty talking like a L.A. girl  
And she said, "If it's a wedding, that's a life sentence"  
If she with me then she'll only get depressing

I'm feeling nauseous, it's just my anxiety  
So used to being cautious when I feel this inside of me  
But I'm never too scared to love you, baby, ooh yeah  
I'm never too scared to love you, baby, ooh yeah

Don't hold your breath, we're gon' take it slowly  
Won't be no next week, it's a [?]  
Stuck in a feel, love, this is real  
It's hard 'cause it never would happen

I'm feeling nauseous, it's just my anxiety  
So used to being cautious when I feel this inside of me  
But I'm never too scared to love you, baby, ooh yeah  
I'm never too scared to love you, baby, ooh yeah  
I'm feeling nauseous, it's just my anxiety  
So used to being cautious when I feel this inside of me  
But I'm never too scared to love you, baby, ooh yeah  
I'm never too scared to love you, baby, ooh yeah
