

# Nicotine

Luke Christopher

Damn she's a vibe and she's pretty  
Lips taste just like nicotine  
And I've seen the way she look at me  
This one's going in the memories  
'Cause if you let me (mmhmm)  
We can toast to the life that you couldn't have  
If you never met me (mmhmm)  
'Cause it's nice  
But a change in your life  
But a change too [?]

She got me through a loop  
Got me going off the magic  
Alakazam  
Poof, miss you know what to do  
Maybe I just need another [?]  
All I said was "Hi"  
She like "ok, bye"  
"I can sell you game"  
She like "ok, try"  
You should know that talking to you is not that simple  
Usually I walk up and I flash these dimples  
I'm looking for love  
I can do the [?]  
Make you laugh  
Open doors  
Blow your back, but then support  
You see I got game  
You see the passion on the court  
You should know your love is all I'm asking for of course

Damn she's a vibe and she's pretty  
Lips taste just like nicotine  
And I've seen the way she look at me  
This one's going in the memories  
'Cause if you let me (mmhmm)  
We can toast to the life that you couldn't have  
If you never met me (mmhmm)  
'Cause it's nice  
But a change in your life  
But a change too

And I can't go home  
If I'm all alone  
'Cause your love's my drug  
I can't get enough  
And I can't go home  
If I'm all alone  
'Cause your love's my drug  
I can't get enough  
And I can't go home  
If I'm all alone  
'Cause your love's my drug  
I can't get enough  
And I can't go home  
If I'm all alone  
'Cause your love's my drug

I can't get enough  
And I can't go home  
If I'm all alone  
'Cause your love's my drug  
I can't get enough  
And I can't go home  
If I'm all alone  
( 'Cause your love's my drug)  
(I can't get enough)
