

# ORIGAMI

Luke Christopher

Why, let's not let this thing end in a fight  
Before we both go live our separate lives  
At least we know we did it  
There's no shame in ending  
We made something pretty, we made  
Origami, origami (Made, made)  
Origami, origami (Made, made)

Yeah, we had things that we wanted to do  
Years have passed, never followed through  
I saw the passion, the fire in you  
Like, when you would laugh, I'd be dying too  
Oh, let me tell myself that I ain't try though  
I found a love, thought I won the lotto  
You kept me up for some years to follow  
How the fuck now am I here in sorrow  
This the life that we 'posed to live  
Wife and kids on that poster shit  
Grip is slippin', I'm holdin' tt  
Something here is supposed to give  
All you are is a silhouettes  
I can taste your cigarettes  
I don't listen to me enough  
All I need is that peace and love  
Goin' in like a Kamikaze  
Pickin' fights with the paparazzi  
You let go of that mini skirt  
Damn, this love can't get any worse  
We ain't handled our old shit  
Always trying to control it  
Well I decide what I'm runnin'  
Think it's time that we fought it

So why, let's not let this thing end in a fight  
Before we both go live our separate lives  
At least we know we did it  
There's no shame in ending  
We made something pretty, we made  
Origami, origami  
Origami, origami  
Origami, origami (Origami)  
Origami, origami  
We made  
(La la la la la)  
(La la la la la)  
Origami, origami
