

POM POMS

Luke Christopher

I love it when you wear pom poms
Puttin' it down for me
I think you made me two times stronger
Showing me that you believe
And you don't do too much
But always show me love
I wear pom poms
And I wear pom poms for you, pom poms for you

You know that [?] baby had me all the way
Any time you need attention, I'll be on the way
Anyone who's fighting us is added to the pay
Never see us coming, we're a couple feet away
For me you support, I always see you standing by the court
Reality distort, I feel like I could never come up short
With you, of course I know it's really quite a show
But you know I do the same for you
I be cheering all the way for you

I love it when you wear pom poms
Puttin' it down for me
I think you made me two times stronger
Showing me that you believe
And you don't do too much
But always show me love
I wear pom poms
And I wear pom poms for you, pom poms for you
Two times strong

Shawty, you know that I got your back
I'll be there when you least expect
You know I'm your biggest fan
I only want to see you win
Shawty, you know that I got your back
I'll be there when you least expect
You know I'm your biggest fan
I only want to see you win

I love it when you wear pom poms
Puttin' it down for me
I think you made me two times stronger
Showing me that you believe
And you don't do too much
But always show me love
I wear pom poms
And I wear pom poms for you, pom poms for you
