

# Red Light

Luke Christopher

You better kiss me the minute I stop  
I can hardly breathe  
You know the silence is killin' us  
This ain't you and me

Ooh, baby, kiss me at the red light  
Before the light turns green  
'Cause I'm not driving 'til you love me back  
Do you still feel seen?  
Do you still feel?

How long has this been haunting us?  
Are we ghosts?  
I don't know anymore  
Truth hurts when you lying  
I know you have feelings for your bestfriend  
Can't say I ain't trying  
I'm just tryna [?] 'cause you switch it up everyday  
You seem like you like it  
'Cause [?] since 2020  
The chips on her shoulder  
The pat on the wrist  
Why we're being funny?  
Feel like you like it  
When we here fighting these battles  
Kiss me 'fore I [?] this car

Ooh, baby, kiss me at the red light  
Before the light turns green  
'Cause I'm not driving 'til you love me back  
Do you still feel seen?  
Do you still feel?

Do you still feel  
Do you still feel  
Seen? (seen)  
Do you still feel  
Do you still feel  
Seen? (seen)  
Do you still feel  
Do you still feel  
Seen?  
Do you still feel seen?  
Do you still feel seen?

Ooh, baby, kiss me at the red light  
Before the light turns green  
'Cause I'm not driving 'til you love me back  
Do you still feel seen?  
Do you still feel?

Ooh, baby, kiss me at the red light  
Before the light turns green  
'Cause I'm not driving 'til you love me back  
Do you still feel seen?  
Do you still feel?
