

Roll With Me

Luke Christopher

Yeah, my niggas all gone girl
And we're still sitting
This place is getting boring
We should hit the city
I started looking sober
But you're still pretty
This place is getting boring
You should roll with me

My niggas all gone girl
Them niggas probably left me
This place is getting quiet
Its people getting messy
I can take you home girl
If you want to go there
Or we could find a dance floor
In the middle of nowhere
And I don't know your name girl
I don't really need to
Cuz I don't want to touch you
I just want to see you
And I'm probably not a great guy
Definitely not a rich one
And I don't usually go to parties
But I'm glad I came to this one

Yeah, my niggas all gone girl
And we're still sitting
This place is getting boring
We should hit the city
I started looking sober
But you're still pretty
This place is getting boring
You should roll with me

Your friends all gone girl
Them bitches probably left you
I don't mean to be rude, but
How could anybody forget you
I can tell you ain't the typical type
Walkin' around here like that
I ain't letting you leave by yourself
I ain't putting you alone in a cab
Music is getting softer
You only playing harder
I can tell that you listening
We'll finish what we started
And your body's on fire
Shorty get me higher
Baby I don't want to miss you
But I'm getting tired of trying

(you should roll with me)
My niggas all gone girl
(you should roll with me)
But we're still sitting
(you should roll with me)

This place is getting boring
(you should roll with me)
We should hit the city
(you should roll with me)
I started to be sober
(you should roll with me)
But your still pretty
(you should roll with me)
This place is getting boring
(you should roll with me)
You should roll with me

I started to be sober
But your still pretty
This place is getting boring
You should roll with me
