

SAY IT BACK

Luke Christopher

I'm not too proud to say sorry, yeah
But you better say it to me
Yeah, no, not too hard to say, "I need you", sometimes
But you better say it to me, oh-ooh-oh-oh, me

Oh, you know we could be magic
I just need to hear you, hear you say it back to me
Oh, you know we could be magic
I just need to hear you, hear you say it back to me, me

'Cause good love isn't free
And if you dressing up, I hope you do it just for me
Or just for yourself
I say in your light top bed, not let nobody else
You say in your light top bed, not fuck nobody else
Not supposed to be sensitive, but I'd be it anyway
You're not supposed to see me like this but you see it anyway
I say it to your face
I just got to tell you, baby, I just gotta say it, baby

I'm not too proud to say sorry, yeah
But you better say it to me, yeah
Yeah, no, not too hard to say, "I need you", sometimes
But you better say it to me, oh-ooh-oh-oh, me

Oh, you know we could be magic
I just need to hear you, hear you say it back to me
Oh, you know we could be magic
I just need to hear you, hear you say it back to me
Oh, you know we could be magic
I just need to hear you, hear you say it back to me
Oh, you know we could be magic
I just need to hear you, hear you say it back to me
