

# WHERE U BEEN!

Luke Christopher

I've seen your face  
In magazines  
I can tell you lookin' at me  
And I hear your voice  
In the books I read  
Always there but you stay unseen  
And I've gone through mountains  
Of heartless people  
I've lost my balance  
And danced with evil  
No pretending, I  
I think I need something different, I  
I just got one question...

(Un, deux, troi)  
WHERE U BEEN?  
These hands have touched a lot of bodies  
Lookin' 4 the one  
I can't win  
Whenever you're hiding  
I'm trynah find it  
Yes I been a lil bit bad  
That's because I've never had you  
You  
Yes I been a lil bit bad  
That's because I've never had you  
You

Yeah  
I don't think that I'm asking 4 too much  
Everyone deserves a little love  
I've learned to keep my feeling always shut  
But it's lonely, killin' me  
So I fight a fire with fire  
This burning desire  
This time I've been wasting  
This soul I've been chasing  
It's surrounding me now
