

# A Long Way

Luke Combs

Six beers, five guys  
And if I remember right  
It was a Wednesday when we got our buzz off  
A second-hand six pack  
Half smoked, soft pack  
Light it up, boys take a drag  
And when I fought that cough off everyone else thought  
I was so damn cool

My head was spinning like a tilt-a-whirl  
Yeah man it really rocked my world

Back when things seemed just a little bit stronger  
Back when the weekend lasted a little bit longer  
Can't tell you why they did but things seemed to never end back  
then  
Oh, way back when  
When a little went a long way

One girl, and 45  
Bucks was all it took that night  
Hit the steak house, make-out in the movies  
Way up in the back  
Credits roll, on pace  
To make it all the way to second base  
Tried to play it cool like it was nothing new  
And she didn't have clue

That my head was spinning like a tilt-a-whirl  
Yeah man she really rocked my world

Back when things seemed just a little bit stronger  
Back when the weekend lasted a little bit longer  
Can't tell you why they did but things seemed to never end back  
then  
Oh, way back when  
When a little went a long way

Back when things seemed just a little bit stronger  
Back when the weekend lasted a little bit longer  
Can't tell you why they did but things seemed to never end back  
then  
Oh way back when, when a little went a long long way, oh  
A long way
