

Be By You

Luke Combs

Kinda like an old jon boat on some large mouth water
Kinda like that breeze that blows through a sweet home holler
I can't leave your lovin' alone
Where you are is where I belong

I hope I ain't comin' on too strong
Just wanna hold you close, baby
Kinda looks like you do too
I just wanna make love, wake up next to you
No makeup, baby, nothing beats that view
I guess what it comes down to
Is I just wanna be by you

Love it when you're slide to the middle
I'm stuck to you like glue, on your hip like a pistol
Wanna find me, you ain't gotta look far
There's nothing that can pull us apart

And I hope I ain't comin' on too strong
Just wanna hold you close, baby
Kinda looks like you do too
I just wanna make love, wake up next to you
No makeup, baby, nothing beats that view
I guess what it comes down to
Is I just wanna be by you

At the day ends and why
If the sun or the moon hangin' up in the sky

I hope I ain't comin' on too strong
Just wanna hold you close, baby
Kinda looks like you do too
I just wanna make love, wake up next to you
No makeup, baby, nothing beats that view
I guess what it comes down to
Is I just wanna be by you
