

Dear Today

Luke Combs

Dear today, tomorrow here
Man I was just checkin' in, hope you been well
Me I'm doin' alright, could always be better
Seen as you're the only one with a choice in the matter
If I know you, hell, you're too busy
To do damn near anything, that you ought to
I guess what I'm sayin' is, if you don't change
Boy, you'll be kickin' yourself one of these days

So maybe you should call our Mama, have a drink with our old ma
n
Quit wastin' our sweet time and put that diamond on her hand
Stop takin' me for granted like I'll always be around
Cause even as you read this boy that clock is tickin' down
And remember every second I got's borrowed
So I hope you think of me today, sincerely tomorrow

Listen I ain't tryin', to bring you down
Cause I know damn better than, pushin' you around
I guess I was just lookin' out, for you and me both
Cause we both lose if I told you so

So maybe you should call our Mama, have a drink with our old ma
n
Quit wastin' our sweet time and put that diamond on her hand
Stop takin' me for granted like I'll always be around
Cause even as you read this boy that clock is tickin' down
And remember every second I got's borrowed
So I hope you think of me today, sincerely tomorrow

So maybe you should call our Mama, have a drink with our old ma
n
Quit wastin' our sweet time and put that diamond on her hand
Stop takin' me for granted like I'll always be around
Cause even as you read this boy that clock is tickin' down
And remember every second I got's borrowed
So I hope you think of me today, sincerely tomorrow
