

Be Bad

Luke James

Yeah

I talk that talk, I walk that walk
I come right up t o you, and say what's up
You tell me your name, and I'll tell you the same
I came alone, in hope to gain
Follow me, take my hands
I'll leave your body, to the promise land
If I'm hard to read, then let me please
Help you understand, just what I mean

Be bad, be bad, be bad, be bad
Don't you wanna (hey, hey)
That's right... (hey, hey)
That's right

That's right
Here I go, there you are
Soft and ready, to get it on
Don't be shy, there's no lie
We can act how we like
Ain't no judging, just free loving
Baby come here, let's start cooking
Burn it up, burn it down
Baby come on, work it out

And be bad, be bad, be bad, be bad
Don't you wanna (hey, hey)
That's right... (hey, hey)
That's right

Here come the tenth round, take it now
You're allowed
Like a good girl, take it down
And get loud, real loud
Louder and louder and louder and louder
Oohh

Hey
That's right
Tha's right

- Say something
- Let's make love
- For once let's be real, what you and I do is not make love
- What would you call it then?
- It's definitely not making love
- Boning?
- You've been more imaginative
- Oh, I gotta man up. You ever heard of Mo' better?
- Mo' what?
- Mo' Better makes it Mo' Better (Mo' Better makes it Mo' Better)
- Yeah, that's what we do, we don't make love, because you don't love me
- Oh
- But in the meantime, I'll settle for some of that Mo' Better
- Yeah, I know you would
