Luke James

Wow

Nineteen ninty (Ninty, ninty, ninty, ninty)

We smoke out on the couch

Watching Martin screams and shout

It's funny how he's always kicking Pam out of the house

It's sunny and it's sunday but you're lazy when it counts

You're lazy when it counts but you always put it down yeah

With your mismatched sad song

Your Erykah Badu is a [?] Tyrone

No, no

And we in the freezone

That systematic beat that made your stay cast your dial stone

Oh, treat ya

Her sex is overwhelming got me screaming sweet lord

Oh lord, yeah

I don't wanna seem ready

But the [?]

And that's what you call a classic

Ni-Ni-Nineteen ninety-nine (Vibe), nineteen ninety-nine, Nineteen ninety

We on the cool vibration

We keep it chill, no stress and no basics

That's a feeling, what's up

Ni-Ni-Nineteen ninety-nine, nineteen ninety-nine, Nineteen ninety

We on the cool vibration

We keep it chill, no stress and no basics

That's a feeling, what's up

Go girl, go girl, go girl

Go girl, go girl

More than just some honey

I mean you really do know me

True, never had a lot of you

Probably wouldn't know what the hell to do

Huh

Make love any way don't need a reason

I'mma tell a secret when we sex she ain't no vegan

Plus she get her attitude, everytime I'm leaving

I'm still teasing [?] if she's loving what she's receiving, mean it

Even if I stick it [?]

We always had [?]

Even if public yeah, I rub it

Touching how she's touching me

Even arguing even cussing

Then we hugging and we loving

Then we f\*cking then we touching

Then I rub it back to sleep

Go girl

Go girl, go girl, go girl, girl

Go girl, go girl, go girl, go girl

Go girl, go girl-girl, go girl, girl

Go girl, go girl

Oh my God  
You show wild, you show off  
Oh my God, oh my God  
Riding out, don't fall off  
You're a star, you're a diva babe  
A living legend  
Down to earth like Issa Rae  
Even though you're from Heaven  
We've been locking all day  
We drink and we're f\*cking and got good tree on the way  
(Oh yeah)  
Good smoking, good mushing and got Uber eats on the way  
[?]  
Don't trip, don't tate it  
We're so high, we're so high  
We're too high to land it  
So we gon' keep it in the atmosphere  
I'mma put a kiss right there  
[?]  
We took shots tonight  
Nineteen forty-two, nineteen ninty-five

Nineteen ninety-nine (Vibe), nineteen ninety-nine, Nineteen ninety  
We on the cool vibration  
We keep it chill, no stress and no basics  
That's a feeling, what's up  
Ni-Ni-Nineteen ninety-nine, nineteen ninety-nine, Nineteen ninety  
We on the cool vibration  
We keep it chill, no stress and no basics  
That's a feeling, what's up
