

# These Arms

Luke James

I feel it coming on, I feel it getting strong and so hot in this room  
Our bodies intertwine, a different kind of high baby [?]

So sugar tease me, please me  
Girl, do what you do, I love the view  
I just wanna kiss and touch and feel all over you  
Baby, 'cause when you're in

These arms of mine  
I hold you tight, every night when you're in  
These arms of mine  
I do it right, do what you like when you're in  
These arms of mine  
I hold you close, never letting go, talking 'bout  
These arms of mine  
Felt so divine in these arms of mine, no

Your lips are soft and wet, can't wait until I get every breath of you  
I feel the power rise, I know what's on your mind, baby  
I can feel it too

So sugar tease me, please me  
Girl, do what you do, you know I love the view

I just wanna kiss and touch and feel all over you  
Baby, 'cause when you're in

These arms of mine  
I hold you tight, every night when you're in  
These arms of mine  
I do it right, do what you like when you're in  
These arms of mine  
I hold you close, never letting go, talking 'bout  
These arms of mine  
Felt so divine in these arms of mine

All over, all over, all over babe [x7]  
All over, all over

These arms of mine  
I hold you tight, every night when you're in  
These arms of mine  
I do it right, do what you like when you're in  
These arms of mine  
I hold you close, never letting go  
These arms of mine  
Felt so divine in these arms of mine

Give me all your love  
Give you all my love
