

who you are

Luke James

This perception's got me restless
I ain't dreamin' unless you're there
I supply what your require
I need you like I need air
You give me life with all that light your shinin'
Oh there's no question
It's evident that you would compliment the love
That I have in

So how would you feel
If I gave you somehtin' real
If I told you I was serious
I'm not spinnin' your wheels
If I open up my heart
Took a chance with you and
Maybe you can show me who you are

(Who you are)
Oh yeah
That's right baby
Show me the truth
Who you are

(Who you are)
Ooo who you are
Who you are girl

Did I mention I loathe tension
Ain't no stressin' when we touch
My salvation, my temptation
I found safety in your clutch

Come save me now just stick around
No you ain't gotta stay long
How you make minutes pass like seconds
I feel like I gotta hold on

So how would you feel?
If I gave you somehtin' real?
If I told you I was serious?
I'm not spinnin' your wheels
If I open up my heart?
Took a chance with you and
Maybe you can show me who you are

(Who you are)
Don't just leave me standing in the dark
Show me who you are

(Who you are)
Ooo who you are
Mmm I know

Love

Love love love love love love yeah
La la la la la love

Love love love love love love love love
Love me long time baby I'll show you a good time

Love love love love love love ah!
La la la la la love
Love love whoo!
