

Greatest Lovers

Luke Sital-Singh

I can feel on my skin
Only I was whimpered in
Since my mind met your mind
I can see up ahead there's a mountain
Where you say, you are mine, you are mine
You feel the flames getting close to your face
And I'm scared of the deepest me
And these winter threes they are dancing with dreams
In their branches for you and I

We'll become
We'll become the greatest lovers
The greatest lovers
We'll become
We'll become the greatest lovers
The greatest lovers the world has ever seen

Oh I can see a rushing river running from here to forever
Hold on tight we'll flow together
And we'll know it's all right
We'll watch the moon risen
We'll have light to climb the mountain
We'll be old and stronger within
I am yours and you are mine

We'll become
We'll become the greatest lovers
The greatest lovers
We'll become
We'll become the greatest lovers
The greatest lovers the world has ever seen

You feel the flames getting close to your face
And I'm scared of the deepest night
These winter threes they are dancing with dreams
In their branches for you and I

We'll become
We'll become the greatest lovers
The greatest lovers
We'll become
We'll become the greatest lovers
The greatest lovers the world has ever seen
