

Demon

Lulu Santos

Live with your own demon
Don't dump it on other people
Live with your own demon
Don't dump it on me

You have the choice
You now the price to pay
When you bang your own noise

You were ever told
What you could and what you couldn't do
The day you got old
So
Cut the crap don't throw it on the fan!

Live with your own demon
Don't dump it on the other people
Live with your own demon
Don't dump it on me

You know the score
If it don't show they say
You ain't got it no more

Its always there
None of us could ever dare
Say we don't care
So
Cut the crap
Don't throw it on the fan!

Live with your own demon
Don't dump it on other people
Live with your own demon
Don't dump it on me
