

## Aftermath

LUNA KILLS

You're just like me, I see you leaving, want to believe there is more

And it breaks my heart

Oh don't you call me back, don't you come back no more

The feeling grows, makes me scratch 'till I bleed

Oh when you fall, just forget about who you are

You heard me sing, you stole my everything

I begged and begged forgiveness, I wish I was not that easy

Shame, I burn my skin so I am clean again, I didn't want you

Shame, shame on me and my perfect life, I didn't love you

Scarred and in pain, I don't mind cleaning up, you and I are the same

I don't want the truth, it's the last time and it's always, always a lie

This is black and white
