LUNA KILLS

I don't know what you think that I want  
Keep talking me down, give it all that you got  
I'm the weight on your chest, now that got you obsessed  
But I'ma drop a bomb you're like everybody else  
There's protocols in place how to earn my respect  
Instead you're explaining how I am feeling today  
What you know about that when you can't sit down  
When you can't close your mouth  
But you're the good guy am I right?  
(You're the good guy am I right?)

Good guy  
You're the one that everybody here is talking about  
Good guy, good guy  
Baby you're that good guy  
You're the mythical creature that everybody's on about  
Good guy, good guy  
Baby you're that good guy

Oh you screaming out that life ain't fair  
Is really damn funny  
Go run your mouth on social media  
And act shocked when your called out  
I'm not a price you see  
I'll give you advice for free  
There's no safe space for your bigotry

Good guy  
You're the one that everybody here is talking about  
Good guy, good guy  
Baby you're that good guy  
You're the mythical creature that everybody's on about  
Good guy, good guy  
Baby you're that good guy

If you shut your mouth you prolly wouldn't be so sore  
I'm not here to treat you nice no  
Not anymore  
If you want to learn things you don't need to earn it  
You just need to listen

Good guy  
You're the one that everybody here is talking about  
Good guy, good guy  
Baby you're that good guy  
You're the mythical creature that everybody's on about  
Good guy, good guy
