

## LEECH

## LUNA KILLS

I burn off my skin so you can leech in  
Inches away from the edge of the dark  
I burn off my skin  
From the edge of the dark  
Closer than ever of falling apart

I breathe the smoke from your lungs  
I'll take a sip from your tongue  
To remind you're the only one  
Us, underneath your disguise  
You make us sick, we go blind  
You're inside of me all the time

I burn off my skin

I burn off my skin, so you can let yourself in  
Inches away from the edge of the dark  
Closer than ever of falling apart  
I burn off my skin, so you can let yourself in  
On the edge of the dark  
I'm closer than ever of falling apart

Oh, sicker the mind is bigger the tide  
It's a kicker to wake up and I'm still alive  
And everytime I slip through the noose is everytime I fuck up

I carve your name in my skin  
So you can let yourself in

I burn off my skin, so you can let yourself in  
Inches away from the edge of the dark  
Closer than ever of falling apart  
I burn off my skin, so you can let yourself in  
On the edge of the dark  
I'm closer than ever of falling apart

(You can let yourself in)  
(You can let yourself in)  
(You can leave [?])

As If I could hide  
I'd rather be burned alive than live without your love

I burn off my skin  
Inches away from the edge of the dark  
Closer than ever of falling apart  
I burn off my skin, so you can let yourself in  
Let yourself in, I'm closer than ever of falling apart

I burn off my skin, I, I, I, I  
I burn off my skin, I, I, I, I  
I burn off my skin, I, I, I, I  
I'm closer than ever of falling apart

(I burn off my skin)  
(I burn off my skin)
