

sugar rush

LUNA KILLS

I am losing my head
I can't seem to shake off this feeling
That we're dying to be hopeless
I need sugar rush, give me sugar rush

I am losing my head

Yeah, I felt like a God
I could walk on water just to show you what we could achieve
But I'm not what you want
So you're pushing and pushing me out

Everybody says I'm losing my potential
Like do they really care that we're all about to
It's so sad that we're getting the attention
Just to get this goddamn tired

I am losing my head
I can't seem to shake off this feeling
That we're dying to be hopeless
I need sugar rush, give me sugar rush
Everybody says I'm losing my potential
Ripping in my flesh like a bunch of vultures
I am losing my head, I need sugar rush
Give me sugar rush

So listen up everybody there's some room on the deck
Take a peek of the void 'cause that's what you're gonna get
All the sugar and spice and everything nice
Tryna fight the urge to scream that we're all gonna die
Die
That we're all gonna die

Everybody says I'm losing my potential
Ripping in my flesh like a bunch of vultures
Glad you're in my head all the 24 hours
Give me sugar rush, give me sugar rush

I am losing my head
I can't seem to shake off this feeling
That we're dying to be hopeless
I need sugar rush, my head is so messed up

I am losing my head
I can't seem to shake off this feeling
That we're dying to be hopeless
I need sugar rush, give me sugar rush
Everybody says I'm losing my potential (I am losing my head)
Ripping in my flesh like a bunch of vultures
Glad you're in my head all the 24 hours
Give me sugar rush, give me sugar rush

Everybody says I'm losing my potential
Ripping in my flesh like a bunch of vultures
I am losing my head, I need sugar rush
Give me sugar rush
