

Take Me Home

LUNA KILLS

Go on nightfall take it all, my heart is beating to that sound
My grave's forgotten, still alive
Whispers sing but I'm all shut down
Feeling the heat rise, breaking in my veins
Go on together there's nothing more to gain
Oh just take it all, It's more fun to be on the winning side
Oh just take it all, It's more fun to watch than fall

You say we won't survive
My flowers, rotten inside your palm
I know we can't survive
Even the shattered dreams fell apart

I know we can't survive

Go on nightfall trash it all, my heart is beating to that sound
Out of control our useless lives
Whispers sing but I'm all shot down
Feeling the heat rise, breaking into my veins
Go on together, there's nothing more to gain
Oh just take it all, It's wiser to watch than fall

You say we won't survive
My flowers, rotten inside your palm
I know we can't survive
Even the shattered dreams fell apart

Feeling the heat rise, breaking up my veins
Get out of my face there's nothing more to gain
I know we can't survive, It's wiser to watch than fall

You say we won't survive
My flowers, rotten inside your palm
I know we can't survive
Even the shattered dreams fell apart

Take me home
