

# Anesthesia

Luna

I see you comin down  
Your life is flashin before ya  
I see you comin round  
You're talking over and over  
You know I tried to please ya  
You're under anesthesia  
I see you comin down  
Too bad there's nothing left over  
I don't know what you mean  
You're talkin over and over  
You know I tried to please ya  
You're under anesthesia  
You know I tried to please ya  
You're under anesthesia  
I see you wakin up  
And now the day is upon ya  
The party's over now  
You're talkin over and over  
You know I tried to please ya  
You're under anesthesia
