Butterfly on the doors, make 'em all go up
30K in my face, I still don't show up
You talkin' down when you lookin' up and I'm like "What's up?"
You talkin' down when you lookin' up and I'm like "What's up?"
They leave me out for the dead, and now they know they're fucke

All my texts are on read, that's how I know she's done
My life changed in a flash, all my friends gone, my friends gon

What can I say? All this lavish shit comes with downfall
Everyday leave my phone at home, not takin' no call
Out my way if you tryna fuck up how I'm workin'
Told that bitch to kick rocks, she know it ain't workin'
For my team, I do it all, I made some sacrifices
And I don't fuck with lean
But my whole family know I got some vices
I blew up in my city, then the world like my name is ISIS
Money getting overwhelming, yeah, it's like a crisis

Butterfly on the doors, make 'em all go up
30K in my face, I still don't show up
You talkin' down when you lookin' up and I'm like "What's up?"
You talkin' down when you lookin' up and I'm like "What's up?"
They leave me out for the dead, and now they know they're fucke
