

## Downside

Luna

(Luna)

I be in L.A, I be on my way  
I be chillin' outside, still be getting paid  
Don't got much to say, Luna to the grave  
I don't see a downside, only see a K

Tell them come and try me, they gon' fuckin' find out  
Hit him with a high-beam, little boy get timed out  
I be on this nightly, riding round my hometown  
You can try to find me, but I never slow down

Everyone around me stayin' solid 'till we're dying  
Same as when you found me only now, I can buy it  
Demons try to drop me, they don't know that I like it  
Only real what I be yeah, you can't even deny it

And your tongue tied when I'm standing in your face now  
On the front lines, you would die any day now  
Looking inside every day for a way out  
Say your goodbyes to the grave you gon' lay down

)
