

Personal

Luna

(Why you gotta take it so personal?)
(And why you gotta do me like that?)
(Talkin' shit about me and it hurts to know)
(All I gave, yeah, you threw it right back)

Why you gotta take it so personal?
And why you gotta do me like that?
Talkin' shit about me and it hurts to know
All I gave, yeah, you threw it right back

Time's been running from me
I've been down this road
Take these demons from me
Lately, I don't know

Yeah, I'm patient, but I can't wait this long
Same shit, yeah, but the pain goes on
And I hate it, so I go and make new songs
(And I still got the same bitch)
And I still got the same bitch
No I'm never changin'
If I make a promise then you know I'll never break it
Sick of being famous
I wish I was nameless
Yeah
(I wish I was nameless, yeah, yeah)

Why you gotta take it so personal?
And why you gotta do me like that?
Talkin' shit about me and it hurts to know
All I gave, yeah, you threw it right back

Time's been running from me
I've been down this road
Take these demons from me
Lately, I don't know

(Time's been running from me)
(I've been down this road)
(Take these demons from me)
(Lately, I don't know)
