

Fallopian Rhapsody

Lunachicks

What about a child that is not wanted?
Every week a baby is left in the garbage
And what if we just make a mistake?
But itçf□ okay if a woman is raped
Oh no youçf□e wrong!
Walking along with my sisters
Walking along getting blisters
Singing our song, me and my sisters
Screaming along with brothers too
And we say
Içf□e got something to say to you honey
Keep your hands off my body!
Never go back never go back never go back, no!
Never go back never go back never go back, no!
Take that hanger, take that hanger, take that hanger
And scratch your back, scratch your back,
scratch your back, scratch your back
What about a child that is not wanted?
Every week a baby is left in the garbage
And tell me now
And what if we just make a mistake?
Itçf□ okay if we are raped
Is procreation what you think weçf□e for?
You support the death penalty
But who will support my baby and me?
Never go back!
Killing doctors while youçf□e praying?
How many rosaries are you saying?
Içf□ bleeding to death from a booched abortion
Gotta have a choise itçf□ the only solution!
Never go back never go back never go back, no!
Never go back never go back never go back, no!
Take that hanger, take that hanger, take that hanger
And scratch your back, scratch your back,
scratch your back, scratch your back
Watch your back! Never go back!
Never go back! Never go back!
