

You Got That Something I Need

LUNAFLY

Ooh. Ooh. Ooh ah ooh.
Ooh. Ooh. Ooh ah ooh.

I love the way that you wrinkle your nose
When you smile at me
I love the twinkle you've got in your eyes now
The only light I see

Oh every time you blink, my heart skips a beat yeah
And it gets harder to breathe
I don't care what you wear
You're beautiful baby
You're Aphrodite to me

You don't need to paint your face in a million ways
Don't you change nothing 'bout you oh I wanna say
You don't need to be like other girls
You can be different girl
Ain't got nothing on you woah

I've seen so many different faces girl, pass me by
They all wanna be like you baby they can try
You know that it don't mean a thing to me
Wish you were here with me
Ain't got nothing on you girl
You've got that something I need

Ooh. Ooh. Ooh ah ooh.
Ooh. Ooh. Ooh ah ooh.
You've got that something I need
Ooh. Ooh. Ooh ah ooh.

You got a reservation inside my head
Oh girl it's saved for you
I don't care what you say
You're beautiful baby
You're Aphrodite to me

You don't need to paint your face in a million ways
Don't you change nothing 'bout you oh I wanna say
You don't need to be like other girls
You can be different girl
Ain't got nothing on you woah

I've seen so many different faces girl, pass me by
They all wanna be like you baby they can try
You know that it don't mean a thing to me
Wish you were here with me
Ain't got nothing on you girl
You've got that something

One two three and four
These girls I showed the door
You are a star that shines so bright
You are my only light
You know you got that little bit of something
That thing that gets me through

I wanna say that baby, damn
I think I love you

You don't need to paint your face in a million ways
Don't you change nothing 'bout you oh I wanna say
You don't need to be like other girls
You can be different girl
Ain't got nothing on you woah

I've seen so many different faces girl, pass me by
They all wanna be like you baby they can try
You know that it don't mean a thing to me
Wish you were here with me
Ain't got nothing on you girl
You've got that something I need
You've got that something I need
