

## Better Soon

### Lunar Vacation

Why are you running  
Between shores and cities?  
Are you better now  
Getting better soon?  
Still feelin down  
Still feeling blue?

The engine's still running  
But the gears are down  
I see you're parked again  
Doing loop de loops  
Well you're lookin good  
Getting better soon?

Living on repeat is getting old  
A hanging thread is not that much to hold  
Afraid that she'll come knocking at my door  
A final scene that's lacking in it's score

I'll-fitting tennies  
The parking meter's up  
And now my legs are gone  
And the key won't turn  
Gotta figure out  
If I'm better now

The right combination  
Of blue medicine  
Burnt the end of the wick  
Of my candlestick  
Well you're looking good  
Are you feeling sick?

Don't want to address this anymore  
Show me that the end is nothing more  
Sign and stick a stamp for them to see  
I'll send it off with my entirety
