Lunar Vacation

Hold on to it
Hold on to it
Hold on to it

I only wish that you could just come over
Show me what I'm missing out on, tell me what you're thinking o
f
I love when things tend to take me over (tend to take me over)
Feeling in the morning, we're a million miles apart

I'd forgotten that the fantasy
I held onto so dearly is over
Time to pack it up
It'll never be seen through

Is there something up with me?
I won't leave my fantasy
Is there something up with me?
I won't leave my fantasy

Fast forward to the future when I'm older
Two rocking chairs adjacent, two cats, a rusty basement
While the wooden snake starts teasing me with fables (tend to t
ake me over)
Shadows in the ashtray whisper "Some things never change"

Reflections of the fantasy
I let hold me so dearly is over
The sun starts coming up
As the credits roll on through

Is there something up with me?
I won't leave my fantasy
Is there something up with me?
I won't leave my fantasy
Is there something up with me?
I won't leave my fantasy
Is there something up with me?
But I won't leave my
No I won't live my

Hold on to it, hold on to it
Hold on to it, hold on to it
Hold on to it, hold on to it
Hold on to it, hold on to it
