

# Peddler

Lunar Vacation

It's cold in Kentucky  
I couldn't believe my feet froze from the street  
I'm high but I'm feeling down  
Keep your head down

A friend is all I should need  
A walk in the dark to hanging pipes and trees  
I'm high but I'm feeling down  
Not feeling too proud that

I really wish I could know you although it's not right to  
Together is something that we'd get to  
I wanna be with you

Concrete can't stop me  
I'll grow through a crack you left but didn't see  
A root started forming down  
I'll be around

I'm not sure what I mean  
The feelings are forming fast and no stopping  
I guess I'll just push them down  
They're getting too loud

I really wish I could know you although it's not right to  
Together is something that we'd get to  
I wanna be with you
