

## Slowdown

### Lunar Vacation

I don't think you can say that  
You're with me every single time  
Simple minded people  
Surrounding blue fluorescent lights  
All night, all night, all night  
You were holding on too tight  
All night, all night

Everyday trapped in your bed 'til half past noon  
Clicking next on What's Suggested  
The only thing to do

Thought I saw you  
Thought I saw you  
Don't know what else to do  
It's escalating and overdue

Always on your mind  
I really can't make sense  
Of the situation from one side  
Are you still watching?  
It's getting harder understanding  
What you do  
An introduction of paranoia  
Was again in bloom

Thought I saw you  
Thought I saw you  
Don't know what else to do  
Are you still watching?  
Or am I confused?

Thought I saw you  
Thought I saw you  
Don't know what else to do  
Are you still watching?  
Or am I confused?

Thought I saw you  
Thought I saw you  
Don't know what else to do  
Are you still watching?  
Or am I confused?
