Introduction

Lupe Fiasco

We have to stop wars, we have to stop this war
And we have to get out the habit of war
It's more than a habit, it's an addiction
We have to get out of thinking that we must be a military super
power

We must get out of thinking that we must have military bases, a
s we have in a hundred countries
Is it possible that having military bases in a hundred countrie
s arouses a lot of antagonism?
Is it possible that it promotes terrorism when your soldiers an
d your sailors are all over the world, occupying this country a
nd that? Is it possible?

Why do we have to be a military superpower?
Why can't we be a humanitarian superpower?
Instead of sending planes for bombs
Why don't we send planes for food and medicine?

Oh shit, it's one of the machines
Looks like it's trapped under something, it's broken or somethi
ng
Hold on lemme get my keyboard, I can re-program this thing
No seriously, I can do it - just give me a second!
I swear to God I can do this, man, I can do this!
You have to work!

Reprogramming unsuccessful

I kill people

All right, this is the last time

Reprogramming successful

Yes!

Fight... evil...
