

Frequency

Luscious Jackson

Here we are
Lost in the radar
You track me down
Deep in the graveyard
Is it me or am I picking up something

It's the frequency when you're next to me
I can tell what your thinking
Are you gonna try
Is it serious or are we just dancing

Radiowaves burn through the basement
I'll be saved
Before I start fading
In the air
I swear there is something

It's the frequency when you're next to me
I can tell what your thinking
Are you gonna try
Is it serious or are we just dancing

It's the frequency when you're next to me
I can tell what your thinking
Are you gonna try
Is it serious or are we just dancing
