

Show Us What You Got

Luscious Jackson

You were born with a rainbow afro
Singing loud getting ready for the late show
Slow your ? in your backpack
Now you're ready to show us what you got

Ooo, show us what you got
Show us what you got
Show us what you got
Show us what you got
What you got, got, got
Show us what you got
Show us what you got
Show us what you got
You got it, you got it

Crazy ladies getting down on the one two
Had it rough but you're soft so you got to
Took 'em up, tell your lines on the train yard
Sitting around on the ground till your head hurt
Shouting down to the people from the rooftop
Lots of push, lots of rush to the next stop
Now you're ready, now you're ready for your best shot
Now you're ready to show us what you got

Ooo, show us what you got
Show us what you got
Show us what you got
Show us what you got
What you got, got, got
Show us what you got
Show us what you got
Show us what you got
You got it, you got it

You might not know how to play
But you do it anyway
Put that broomstick in your hands
Grab your friend and start a band
If your screen is your disease
Turn it off and join us please

Ooo, show us what you got
Show us what you got
Show us what you got
Show us what you got
What you got, got, got
Show us what you got
Show us what you got
Show us what you got
You got it
